

The Pulvertaft Hand Centre
within the Royal Derby Hospital

Sponsored by

In conjunction with

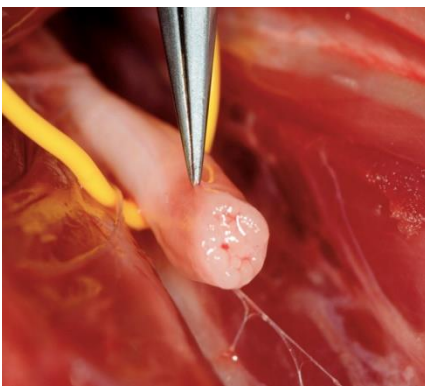

Peripheral Nerve Course

27 June 2025

A National Faculty of Expert Hand Surgeons with specialist practice in
Nerve Injuries.

Basic Concepts of Nerve Pathology - Problem Based Learning

Aimed at **CT1-ST8** level surgeons with a view to expanding knowledge on the basics of peripheral nerve surgical pathology, developing the appropriate clinical examination and explanation of the neurophysiology using a problem based learning approach. There will be the opportunity to examine patients and practise suturing skills on cadaveric nerves.
